

FACILE MACHINES

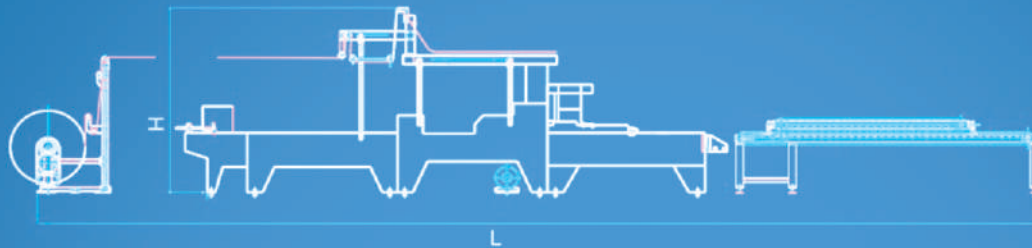

CLM SERIES

Automatic Carton Lining
Packing Machine

MODEL : CLM-18000

Layout of CLM-18000

CLM-18000 is an Automatic Carton Lining Machine with advanced features; like Vacuum Belt blank feeding, Web Aligner and Servo Liner Unwind with tension control

Liner fed in the roll form is formed into tube of required size, cut into required set length and pasted into the carton blanks, which is prefolded and conveyed on timing conveyors. After the liner application the blanks are folded in the final folding section and delivered into pressure conveyor where the glue get set and come out of the conveyor as 'lined carton'

Change over from one size to another size is possible with recommended change parts, which extends the machine utilization and increase productivity.

Technical Specification

Output	Upto 250 cartons / minute depending on carton size and carton & Lining material
Liner Reel OD	Upto 1000 mm max. with 650 kg max. weight Limit
Core Diameter	76 mm
Liner Length	360 mm max
Carton Blank Size	Height 350 max. Carton Length + Width 250 mm max and 90 mm min
Size Change Over	Possible
Power supply	22 Kw, 440, 50 Hz, 3 Phase with neutral and double earth
Dry Air	45 Ltrs / min at 5 Kg / cm ²
Machine Dimention	L 13400 mm X B 3500 mm X H 2600 mm
